

CAMP POLK MEADOW AVIAN MONITORING PROJECT

Monthly Checklist

DETECTION FREQUENCY

Each rating refers to the percentage of the visits in a given month on which a species was detected (seen or heard). Note that all records for August show single occurrences since there were only two August visits in five years.

Abundant	>80%	█
Common	60%-80%	▬
Uncommon	40%-60%	▨
Occasional	20%-40%	▧
Rare	0-20%
Single Occurrence		•

BREEDING STATUS (BR)

Each rating refers to the highest level of breeding behavior observed from 2001-2005. Ratings adapted from the OR Breeding Bird Atlas.
